RE: STB Finance Docket No. 34075 - Environmental Comments
*Six County Association of Governments - Construction and Operation Exemption -
Rail Line between Levan and Salina, Utah*

Dear Mrs. Johnson-Ball:

My family and I live in Monroe City, of Sevier County, Utah. I understand that an environmental review for the proposed construction of this new rail line is in process. I support construction of a train rail into our Valley.

I feel that this new rail line could attract more business and industry to our area, which would increase the possibility of more jobs. The train rail will reduce heavy truck traffic in the Valley, thus improving general safety.

I appreciate that the Six County A.O.G. has involved communities in developing the preferred route. I understand that development of the preferred rail alignment considered farmlands, agricultural areas, wetlands, and cultural resources in this area. It is in our best interest for the SEA to complete the environmental review for this project as soon as possible, so that the Surface Transportation Board can move ahead on this necessary rail line in Central Utah.

Regards,
